PACKAGE 3

AUTONOMY

A package that provides the venue without any associated services. For those who wish to organize their wedding themselves and manage the service providers and the day's events within the framework of the operating and safety rules imposed.

SOLO

PACKAGE 3 - AUTONOMY

You are entirely free to choose not to use our packages and to plan and organize your wedding yourself.

However, renting without a package involves more restrictions that apply by default. Like having to hire a wedding planner.

→ **Our involvement**

As a family business, we do not have enough staff to manage your service providers or create a personalized program.

Our involvement will be limited to managing the accommodations and providing you with information about the reception rooms and areas. Any questions regarding vendors, decorations, or outside services should be addressed directly with the wedding planner.

RESPONSIBILITIES

→ **Scoping Meeting**

An on-site planning meeting with your wedding planner and the caterer is required to discuss the following logistical details: setup and takedown, deliveries and pickups, cleanup and restoration of the venues, catering arrangements, access to and use of the pools, required electrical power, sound system, lighting, and the DJ's volume level, floor plan, accessible areas and private areas of the estate, vendor traffic flow, use of spaces, check-in and check-out times, the event's end time, guest list, waste management, furniture and equipment, as well as the conditions related to the use of any specific equipment.

→ **Technical advisor**

The presence of our technical representative is required. He ensures that all equipment and the electrical system are functioning properly and can intervene in the event of a technical problem. His services are billed at €1,000.

→ **Le Pailier**

You may not use the kitchen at Le Pailier on your own. Only a professional caterer with insurance may use it, subject to certain conditions (equipment, rented tableware, cleaning), and for a service fee of €150 per day.

RESPONSIBILITIES

→ Waste management

You must ask your service providers to completely remove all reception waste (food, recyclables, and glass) upon check-out. Failure to do so will result in a flat fee of €500.

→ Corkage fee

A corkage fee of €5 will be charged per bottle. There is no corkage fee if you order wines and sparkling wines from the estate's wine cellar. Applies to wines and sparkling wines only.

→ Tidying up

The interior and exterior spaces must be left clean and free of any waste. Failure to comply will result in a flat fee of €500 being charged.

→ Insurance

When the customer organizes a private event themselves, they agree to take out event insurance covering the organizer's civil liability and damage caused to third parties or property on the premises.

→ The cottages

Home kitchens cannot be used during weddings, and homes cannot accommodate more people than those residing there for safety and insurance reasons. Household equipment and furniture may not be moved.
